Forecast for Wednesday 03 Jul 2024

Weather: The morning and early afternoon will be cloudy with outbreaks of rain or drizzle, this most persistent and extensive across ranges west of the A9. Drier spells across the Cairngorms. Brighter weather will spread from the west across all parts from mid-afternoon. Then the rest of the day will see broken cloud and a few showers. Showers will become heavy in the evening with a chance of hail, and some wet snow on the very highest peaks.

Chance of cloud-free hill tops above 800m: 30% until mid-afternoon then 70%

Low cloud and visibility: Poor in widespread low cloud down to 700 to 1000 metres until early afternoon, but some breaks possible across the northern Cairngorms. Much improved visibility from mid-afternoon as cloud lifts and breaks to patches around 900 metres or above.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Note strengthening winds and lowering freezing level later in the day. Some wintry precipitation possible on the highest tops in the evening.

Forecast for Thursday 04 Jul 2024

Weather: Sunny intervals and scattered showers, these occasionally heavy with a chance of hail and thunder. Some wet snow on the highest tops at first. Some longer spells of rain may develop across the west of the area through the afternoon and evening. Cold and very windy with summit gales leading to some drenching conditions and significant wind chill.

Maximum wind: Westerly average speeds 40 mph with gusts to 50 mph, but gusting nearer to 60 to 70 mph across the Cairngorm Plateau

Chance of cloud-free hill tops above 800m: 50%, best chance in the morning and across the east of the region

Low cloud and visibility: Very good visibility outside of cloud and showers. Areas of cloud down to 850 to 1000 metres as showers pass by, this may become more extensive in any longer spells of rain in the afternoon and evening.

Temperature: **Glens:** Plus 5 rising to 14 Celsius
At 800m: Plus 6 Celsius
Freezing level: 1200 metres at first in the morning, before rising to 1500 metres by afternoon
